

Soumya Saurav Pattnaik

Senior SDET | QA Automation | CI/CD Integration | AI-Driven Testing

+91-8093799704 soumyasp0050@gmail.com LinkedIn Bengaluru, India

SUMMARY

Experienced QA Automation Specialist with over six years in software testing and quality assurance, focusing on integrating AI-driven testing strategies and optimizing CI/CD workflows. Demonstrated success in accelerating release cycles and ensuring zero critical production issues through strategic automation and risk-based test planning. Looking to contribute strong development and QA skills to a Senior QA Automation position dedicated to delivering reliable, high-quality software products.

EXPERIENCE

Senior Software Engineer – QA Automation

Sportstech Brands Holding GmbH 12/2023 Bengaluru

- Sports technology platform with 100K+ active users across iOS & Android
- Architected and led mobile QA automation for native iOS/Android apps using Appium, cutting regression cycle time by 40% through intelligent test prioritization and parallel execution across 5+ device configurations
- Confirmed RESTful API integrity with Postman and systematized end-to-end API test suites via Rest Assured; enforced SLA thresholds via JMeter performance benchmarks merged into the release pipeline
- Engineered AI-augmented test frameworks with Firebase Crashlytics & Grafana for real-time anomaly detection; deployed LLM-assisted test case generation, accelerating sprint authoring by ~30% and achieving 95%+ coverage on critical paths
- Embedded automation into CI/CD pipelines (Jenkins + GitHub Actions) enabling shift-left quality gates, eliminating manual checks and saving ~8 hours per deployment cycle
- Collaborated with developers, product owners, and stakeholders in Agile/Scrum sprints to define test strategy, acceptance criteria, and release readiness checklists

Automation Engineer

Reshamandi 12/2022 - 12/2023 Bengaluru

- B2B fashion supply-chain platform with live bidding and GST-blended workflows
- Managed a 12-member QA team; defined test strategy and amplified overall test coverage by 50% for a high-traffic live bidding platform using Selenium/TestNG (web) and Appium (mobile)
- Designed comprehensive BDD test suites with Cucumber/Gherkin aligned to business requirements; computerized GST, payout & supply-chain workflows, reducing end-to-end suite execution time by 35% across 200+ scenarios
- Authenticated full platform functionality via cross-browser and cross-device testing on BrowserStack; managed complete defect lifecycle in JIRA across multiple Agile sprints, achieving zero critical escapes pre-release
- Drove defect prevention culture by integrating test reports into sprint reviews and coaching team on TDD practices, reducing bug-reopen rate by 25%

KEY ACHIEVEMENTS

- Automation at Scale**
Reduced manual testing effort by 60% and release cycle time by 40% through end-to-end automation across web & mobile platforms
- Coverage & Speed**
Amplified test coverage by 50% and cut suite execution time by 35% via parallel runs, smart selection & CI/CD optimization
- AI-Driven Testing**
Pioneered LLM-assisted test generation, reducing per-sprint authoring time by ~30% without proportional headcount growth
- Zero Critical Escapes**
Maintained zero critical production defects across 4 release cycles through rigorous traceability and risk-based test planning
- Team Leadership**
Led a 12-member QA team; drove defect prevention culture and incorporated test quality gates across all Agile sprint ceremonies

EXPERIENCE

Manual Test Engineer (Freelancer)

[Healthcare Client](#) 📅 07/2019 - 10/2021 📍 Remote

HIPAA-compliant patient management and medical billing platform

- Executed comprehensive manual and functional testing for HIPAA-compliant healthcare applications; confirmed patient management and billing workflows through 300+ test cases, achieving 98% defect detection rate before production
- Authored detailed traceability matrices mapping 100% of business requirements to test cases and test results; ensured zero critical escapes across 4 major release cycles

Graduate from Engineer Trainee

[Hindustan Aeronautics Limited](#) 📅 07/2017 - 01/2019 📍 Sunabeda

Major Aerospace & Defense public sector undertaking

- Assessed 15+ civil infrastructure projects using AutoCAD and e-tendering platforms; achieved 100% on-time delivery and full regulatory compliance across all assessed sites
- Coordinated cross-functional compliance documentation, reducing report turnaround by 20% and supporting timely project milestone approvals

EDUCATION

B.Tech in Civil Engineering

[Government College of Engineering Kalahandi](#)

PROJECTS

SportstechLive Mobile App

📅 12/2023

SportstechLive Mobile App

- Mechanized onboarding, checkout & payment flows for 100K+ users; integrated Firebase & Grafana dashboards, reducing MTTD by 25%

Cocoon Live Bidding Platform

📅 12/2022 - 12/2023

Cocoon Live Bidding Platform

- Authenticated real-time bidding E2E with Selenium, Appium & Cucumber; computerized 200+ scenarios, cutting execution time by 35%
